

# Bugs/Issues

- Quiz doesn't end after # of questions, answers.js doesn't recognize Var from Forms.js
- Quiz always begins with Sin 0
- IF you don't select any (sine, cosine etc) it warns you but then lets you through anyways.
- Quit quiz option?
- If you ONLY select sine, it contains all options anyways
- Add functionality so that pressing enter is equivalent to pressing check answer.
- Change up design and color scheme (some parts aren't obvious that they

some  
can be clicked on such as next  
question.
